

ParkMap Courses

Essentials

All the necessary skills to navigate within ParkMap, query and find the relevant information as well as generate reports and produce maps. This essential system overview will allow you to use ParkMap efficiently and answer Freedom of Information requests or others Traffic Order related enquiries.

Module 1 *Half day training from £650*

Order Creation & Management

Follow the full life cycle of Traffic orders from their creation as a proposal, amendment, consolidation and finally to their revocation. You will learn how to: enter and amend different restriction types, produce text or map schedules, modify and confirm proposed traffic orders. Module 1 is a requirement for this course.

Module 2 *Half day training from £650*

Administration

Advanced features for system supervisors such as password management, updating OS MasterMap and gazetteers and other administrative tasks. Particular focus will be given to: defining, modifying and grouping restrictions as well as setting up new enforcement times and schedules. Map schedule configuration may also be covered for map schedule users.

Module 3 *Half day training from £650*

To book and for more information
please contact us:
020 8846 3220
training@buchanancomputing.co.uk

50% discount will apply if 2 half days training
are ordered for the same day.

All the course fees allow for up to five attendees. Courses at your office exclude trainer's expenses: standard return rail fare from our offices and £110 when an overnight stay occurs.

SignPlot Link

You will be taken through setting up the Parking Plate generation module and how to link restrictions with the relevant signage. Enabling you to generate and import regulatory parking plates into ParkMap (Permit Holders Parking, CPZ/RPZ entry signs, Prohibition of Waiting/Loading etc.). You will also gain insight into the wider world of SignPlot and traffic sign design.

Module 4 *Half day training from £650*

LineMap Link

Learn how to configure ParkMap's link with LineMap. It involves associating restrictions types with the correct markings. You will cover how to generate accurate road markings from existing orders, (parking bays, double/single yellow lines etc.), as well as more complex and non-order related markings such as zebra crossings, bus clearways, keep clears and box junctions.

Module 5 *Half day training from £650*

Moving Orders

All the fundamental skills to generate, manage and amend moving order restrictions in ParkMap. With a focus on speed limits, banned turns, dimension restrictions and speed maps. You will also be provided with detail on the many pre-configure moving restrictions types which are used by this module. Module 1 is a requirement for this course.

Module 6 *Half day training from £650*
